

GUIDELINES FOR DAY HIKERS AT MINGUS MOUNTAIN CAMP

Mingus Mountain Camp is open for Day Hikes on Wednesdays through Sundays
from 10:00 am to 4:00 pm.

Group leaders are responsible to ensure their family receives the following information. Please make sure that you orient your family to these expectations so we can ensure a fun and safer time for all. Failure to follow these guidelines may result in your family being asked to leave.

We want you to enjoy your time at camp!!!

Check-In

Upon arrival you should park in the main lot as you enter the gate on the left and then text both Annie Warner, Assistant Director and Cat Holbert, Executive Director at 928-634-5273 and 949-682-6552.

Safe Attendance, Activity & Social Distancing:

Leaders should check with members of their group prior to arrival to ensure no persons are symptomatic. In the event a member of the group has a fever, a cough or is otherwise feeling unwell they should remain home.

Groups should consist of family groups and should be limited to 10 or fewer.

Because groups are assumed to be from the same family per the policy above we do not require guests within the same day use group to social distance or wear masks, but are reminded that good hygiene remains critically important (handwashing, cough covering, etc.)

Interaction with other groups at camp is strongly discouraged. In the event groups cross paths (within 6 feet) all participants within both groups must wear a face-covering that covers their mouth and nose. Groups should endeavor to avoid interaction with other groups as much as possible.

When any guest from a group is near another group, social distancing (6' or greater) must be observed. When this cannot be observed, a face covering that covers nose and mouth is required.

Building Access:

No buildings will be available for day users with the exception of designated bathrooms.

You can find open bathrooms at the Ramada located near the main parking lot.

After using the bathroom and washing hands, day users should use the available sanitizing wipes, or sanitizing spray and towels, to wipe down the toilet flush handle, sink handles, and doorknobs. Used wipes should be disposed of in the trashcan/s located outside of designated restrooms.

Staff Availability:

Staff will be available for emergencies while day users are on site. Please use the phone numbers listed above to access staff.

Check Out:

Upon departure, the group leader should text Annie and Cat.

Staff Will:

- Provide good role-modeling by wearing a face-covering when around others.
- Provide cleaning and sanitizing in the restrooms at 11am, 2pm, and after the final day users depart.
- Maintain hand-sanitizing stations.
- Be available in case of an emergency.
